

Electrotechnical Trainer

Location	Nationwide
Salary	Competitive daily rate
Contract	Self-employed
Hours	Flexible and Variable hours

What we're looking for

- Completed a relevant 'time-served' electrical apprenticeship and/or hold full level 3 electrical installation trade qualifications and successfully completed the AM2 assessment to achieve at least ECS/JIB Grade: Electrician.
- An electrical engineering degree or Level 4 qualification in electrical engineering would be advantageous.
- Extensive industrial, commercial and domestic experience in electrical installation or maintenance.
- Experience in the electrical training sector. (This may, for example, include employment with a private training provider or within Further Education.)
- Experience in delivering Level 3 (or higher) electrical qualifications (QCF).
- Recognised teaching qualification, e.g. PGCE, DTLLS, Cert Ed, or equivalent.
- Commitment to contributing to improving the electrical industry.
- Personal skills required to bring our industry leading training to life

About the role

The main purpose of the role is to deliver industry leading electrical installation training and assessment.

You will deliver training, assessment and verification in line with national, legislative or company requirements across a range of awarding organisation certificated electrically biased training programs (City and Guilds, EAL), as well as those within our portfolio of tailored training courses, which have been developed to meet the needs of a diverse range of commercial customers. NICEIC are looking for skilled and self-motivated people to join our team on a part-time associate basis to deliver training courses in electrical installation and associated competencies.

We are looking for suitable candidates across the UK to deliver engaging training at our training centres nationwide and via our remote training platform.

What you'll be doing

- Deliver NICEIC specific training courses to a wide range of delegates using materials, presentations and assessments as developed by the technical development team.
- Teaching and assessing Level 3 Qualifications and Credit Framework (QCF) qualifications and a selection of bespoke electrical installation industry specific courses at Levels 2, 3 and 4.
- Ensure that training delivery complies with all aspects of legislation, and that it is provided within a non-discriminatory, diverse and inclusive environment that is respectful of delegates and accessible to all.
- Be a professional point of contact and provide assistance on day-to-day operational matters at our training venues (including, where required, externally hosted courses).
- Ensure the safe maintenance and operation of equipment and training rigs used on courses, and in accordance with health and safety regulations and company specific requirements.
- Support the Internal Quality Assurance process to ensure the business meets the External Quality Assurance requirements of applicable Awarding Organisations.
- Ensure compliance with group policies, quality procedures and health, safety and welfare requirements.
- Support internal staff and external customers on technical matters and provide guidance.

Our benefits include, but not limited...

- 25 days' holiday a year (plus bank and public holidays)
- Company car / car allowance
- Employee assistance programme
- Employee discount platform
- Flexible and hybrid working (depending on the role)

- Home Office Allowance and Home Office Equipment Reimbursement budget
- Learning opportunities
- Life assurance
- Loyalty awards
- Pension
- Private medical insurance
- Sickness pay - Depending on your length of service, you could be eligible for our enhanced sick pay which is above the Statutory Sick Pay (SSP) amount.

About us

Certsure provides industry-leading certification schemes and support to the building services sector. These services are delivered through the NICEIC brand.

For almost 70 years, NICEIC has been the UK's largest certification body for electrical businesses with over 40,000 currently certified with us. As the industry leader, we drive the highest standards of competence and safety.

We assess, certify and train electricians, plumbers, renewable energy installers, and gas and heating engineers. To become certified, businesses must demonstrate their compliance with technical standards and industry best-practice through rigorous assessments and continuing professional development.

Trade professionals look to us for certification and technical leadership, and value the credibility our name gives theirs. We provide ongoing advice and support and list their businesses on our online 'Find a trusted NICEIC tradesperson' tool.

We help build public trust in trade professionals – and we never compromise on that trust. We work alongside government and industry to shape policy and drive standards. Many UK businesses, government organisations, local authorities and landlords will only work with NICEIC-certified businesses.

How to apply

If you think this is the job for you, then we'd be delighted to hear from you.

Please send your CV to vacancies@certsure.com.

PLEASE NOTE: As an employer, Certsure does not provide sponsorship as a licenced UK employer.

Developing a safe, inclusive culture where everyone can learn, develop and succeed.
