Quotation Your PAS 2030 quote will be based on the number of energy efficient measures you wish to apply for. The onsite assessment time for each measure has been calculated and allocated a number of assessment(s) based on the time required to complete. The total number of assessment(s) and cost of these is illustrated below.

Please tick the measures you wish to apply for in each relevant type (A, B) then calculate the total cost.

Surveillance tiers and rates

Surveillance of NICEIC-certified businesses is calculated based on the requirements of PAS 2031, each measure is allocated a tier (see below) which stipulates a % that dictates the volume of at-location site assessments required using the volume of work undertaken.

Measure Tier	Low	Medium	High
Tier 1	1%	2%	3%
Tier 2	3%	5%	7%
Tier 3	4%	7%	10%
