About the role

We have exciting opportunities for self-employed Energy Efficiency Assessors to cover various locations across the UK. The main purpose of the role is to undertake assessments for all NICEIC customers registered for EEM Building Fabric Measures (BFM) and /or Domestic Heating installations on our PAS 2030 and Competent Person schemes.

What you'll be doing

- Undertaking procedural and site competency assessments for NICEIC registered businesses for EEM Building Fabric Measures (BFM) and /or Domestic Heating installations to PAS 2030 and Building Regulations Competent Person schemes.
- Assessing customers' work and resources to ensure they comply with the scheme rules and technical requirements relating to prior to registration.
- Technical Excellence surveillance assessments to determine their eligibility for continued registration.
- Building relationships with applicants for registration, electrical contractors, their employees and various other professional bodies, and providing qualified assessment services.
- Working independently in accordance with instructions and guidance outlined in procedural manuals.
- Demonstrating a high level of technical competence over EEM Building Fabric Measures (BFM) and /or Domestic Heating Installations to PAS 2030.

Our benefits include, but not limited...

- 25 days' holiday a year (plus bank and public holidays)
- Company car / car allowance
- Employee assistance programme
- Employee discount platform
- Flexible and hybrid working (depending on the role)
- Home Office Allowance and Home Office Equipment Reimbursement budget
- Learning opportunities
- Life assurance
- Loyalty awards
- Pension
- Private medical insurance
- Sickness pay - Depending on your length of service, you could be eligible for our enhanced sick pay which is above the Statutory Sick Pay (SSP) amount.

About us

Certsure provides industry-leading certification schemes and support to the building services sector. These services are delivered through the NICEIC brand.

For almost 70 years, NICEIC has been the UK's largest certification body for electrical businesses with over 40,000 currently certified with us. As the industry leader, we drive the highest standards of competence and safety.

We assess, certify and train electricians, plumbers, renewable energy installers, and gas and heating engineers. To become certified, businesses must demonstrate their compliance with technical standards and industry best-practice through rigorous assessments and continuing professional development.

Trade professionals look to us for certification and technical leadership, and value the credibility our name gives theirs. We provide ongoing advice and support and list their businesses on our online 'Find a trusted NICEIC tradesperson' tool.

We help build public trust in trade professionals – and we never compromise on that trust. We work alongside government and industry to shape policy and drive standards. Many UK businesses, government organisations, local authorities and landlords will only work with NICEIC-certified businesses.

How to apply

If you think this is the job for you, then we'd be delighted to hear from you.

Please send your CV to vacancies@certsure.com.

PLEASE NOTE: As an employer, Certsure does not provide sponsorship as a licenced UK employer.

Build your career at Certsure and
build confidence in Britain's trades.
